

CENTER FOR NEW MEDICINE

Jan Yager, Ph.D. was the ghostwriter for the book proposal and sample chapter for my book, *The Cancer Revolution*. Jan was such a dedicated professional that she suggested flying out to California so she could meet and interview me, visit my medical practice and observe what we do, and interview some of the patients. I highly recommend Jan Yager as a ghostwriter because of her excellent book and book proposal development, research, and writing skills. Based on Jan's well-written ghosted book proposal and sample chapter, I was able to sell *The Cancer Revolution* to a major New York publisher for a sizable advance.

--Leigh Erin, Connealy, M.D., Director, Center For New Medicine and author, *The Cancer Revolution*
